Emmunize Your Computer: Protect Yourself

Emmunize is a new and proven effective antivirus software that works by blocking all suspicious or unidentified programs from running on your computer.

An independent study has shown that **Emmunize** stopped 100% of viruses 1-14 days old and, even more impressively, 100% of viruses **CREATED THE SAME DAY**, when competitors could not stop any!

With a few clicks of your mouse, you can protect your computer (and your identity, banking information and personal information) all the time.

No Long-Term Commitment: Priced Right

A subscription to **Emmunize** does not require a long term commitment. Subscribe as long as you like. Subscriptions are offered on a monthly basis for only \$6.99 per month (for one computer; \$8.99 for up to three computers).

[Start Your Subscription Here](#)

A Donation is Automatically Made to East Jackson Elementary School

With every monthly subscription to **Emmunize** purchased through the link above, East Jackson Elementary School receives a donation directly from All At Home, the company that provides **Emmunize**.

The monthly subscription price is not marked up to include the donation -- it is the standard price for **Emmunize**. So all you need to do to protect your computer AND support Jackson County is subscribe to **Emmunize**.

We hope you'll consider trying Emmunize. There are no restrictions on who can **subscribe through the dedicated link**, so we encourage you to forward this along via email or Facebook to friends, family, and colleagues.

Thank you for your support!

Jennifer Halley,

Principal
East Jackson Elementary School
